

## CITIZEN COMMENT FORM

Public Comments Being Sought  
for Corridor Study  
North-South Expressway  
(I-220 to Arkansas State Line)

The Louisiana Department of Transportation and Development (LA DOTD) seeks public comments from individuals, citizens, community groups and organizations, local officials, and agencies on the proposed, new highway between I-220 to the Arkansas State Line. The State of Arkansas is planning the extension of this roadway to Texarkana, DeQueen, Ft. Smith, Fayetteville, and Missouri State Line (portion of the project has already been constructed).

Please make your comments on this form in the space provided. Leave the form with the LA DOTD official or the Consultant at the Workshop or Public Information Meeting or mail by September 10, 1994 to: Mr. Chris Demopulos, Demopulos and Ferguson, Inc., 401 Edwards Street, Suite 1600, Shreveport, Louisiana 71101-6141.

1. Do you have knowledge of any archaeological sites, historical buildings or areas, or cemeteries (family or part of an abandoned church site)?

No

2. Do you know of any abandoned landfills or hazardous waste sites, environmentally sensitive areas, endangered species or unique biological conditions, or endangered wildlife habitats within the Study area which should be considered in the evaluation of this project?

No

3. If the proposed highway is within two miles of your community, do you believe it will have a beneficial effect upon its economy?

Yes

4. Do you believe this project will have a beneficial effect (economical, quality of life) upon you or your community?

yes

5. Make additional comments here:

*Am interested in Proj 49  
extension. Hope it can proceed  
with benefits for all - and least  
amount of dissension*

(FOLD HERE FOR MAILING)

6. Please give us your name and address, if we need to obtain additional information about your responses to the above. Do you wish to be added to our Project Mailing List to receive Notice of future meetings?

## CITIZEN COMMENT FORM

Public Comments Being Sought  
for Corridor Study  
North-South Expressway  
(I-220 to Arkansas State Line)

The Louisiana Department of Transportation and Development (LA DOTD) seeks public comments from individuals, citizens, community groups and organizations, local officials, and agencies on the proposed, new highway between I-220 to the Arkansas State Line. The State of Arkansas is planning the extension of this roadway to Texarkana, DeQueen, Ft. Smith, Fayetteville, and Missouri State Line (portion of the project has already been constructed).

Please make your comments on this form in the space provided. Leave the form with the LA DOTD official or the Consultant at the Workshop or Public Information Meeting or mail by September 10, 1994 to: Mr. Chris Demopoulos, Demopoulos and Ferguson, Inc., 401 Edwards Street, Suite 1600, Shreveport, Louisiana 71101-6141.

1. Do you have knowledge of any archaeological sites, historical buildings or areas, or cemeteries (family or part of an abandoned church site)?

*No*

2. Do you know of any abandoned landfills or hazardous waste sites, environmentally sensitive areas, endangered species or unique biological conditions, or endangered wildlife habitats within the Study area which should be considered in the evaluation of this project?

*Black Bayou*

3. If the proposed highway is within two miles of your community, do you believe it will have a beneficial effect upon its economy?

*N/A*

4. Do you believe this project will have a beneficial effect (economical, quality of life) upon you or your community?

*Yes - Economic Development; Tourism Enhancement*

5. Make additional comments here:

Beginning of Hwy. 1 N. 4-LANING IS ALREADY UNDER  
WAY AND BEING FUNDED BY STATE OF LA. WHY NOT  
COMBINE THIS WITH FEDERAL MONEY AND MAKE IT THE  
I-49 ROUTE NORTH OF I-220 TO TX HWY. 77 THAT  
IS PLANNED TO BE 4-LANED FROM U.S. HWY. 59 IN  
ATLANTA, TX TO MEET LA HWY. 1.

I ALSO BELIEVE TRIP DATA ON HWY. 1 AS PRESENTED AT  
MEETING ARE OFF BASE. HOW MANY DAYS AND HOW MANY  
SURVEYS WERE DONE ON HWY. 1 - WHAT PERIOD OF TIME?  
I HAVE CONCERN ABOUT THIS DATA.

(FOLD HERE FOR MAILING)

## CITIZEN COMMENT FORM

Public Comments Being Sought  
for Corridor Study  
North-South Expressway  
(I-220 to Arkansas State Line)

The Louisiana Department of Transportation and Development (LA DOTD) seeks public comments from individuals, citizens, community groups and organizations, local officials, and agencies on the proposed, new highway between I-220 to the Arkansas State Line. The State of Arkansas is planning the extension of this roadway to Texarkana, DeQueen, Ft. Smith, Fayetteville, and Missouri State Line (portion of the project has already been constructed).

Please make your comments on this form in the space provided. Leave the form with the LA DOTD official or the Consultant at the Workshop or Public Information Meeting or mail by September 10, 1994 to: Mr. Chris Demopulos, Demopulos and Ferguson, Inc., 401 Edwards Street, Suite 1600, Shreveport, Louisiana 71101-6141.

1. Do you have knowledge of any archaeological sites, historical buildings or areas, or cemeteries (family or part of an abandoned church site)?

On the west side <sup>of Hwy 71</sup>, slightly north of Belcher  
Caddo Prairie Cemetery.

2. Do you know of any abandoned landfills or hazardous waste sites, environmentally sensitive areas, endangered species or unique biological conditions, or endangered wildlife habitats within the Study area which should be considered in the evaluation of this project?

No

RECEIVED  
AUG 30 :  
DEMOPULOS &  
FERGUSON  
SHREVEPORT  
LOUISIANA

3. If the proposed highway is within two miles of your community, do you believe it will have a beneficial effect upon its economy?

Yes

4. Do you believe this project will have a beneficial effect (economical, quality of life) upon you or your community?

Yes

5. Make additional comments here:

I believe that the proposed site (between Hwy 74 and 3049) would be a good site. I believe construction of this proposed Hwy would have a greater economic impact on Shreveport, Bossier and surrounding area than the navigation on the Red River.

## CITIZEN COMMENT FORM

Public Comments Being Sought  
for Corridor Study  
North-South Expressway  
(I-220 to Arkansas State Line)

The Louisiana Department of Transportation and Development (LA DOTD) seeks public comments from individuals, citizens, community groups and organizations, local officials, and agencies on the proposed, new highway between I-220 to the Arkansas State Line. The State of Arkansas is planning the extension of this roadway to Texarkana, DeQueen, Ft. Smith, Fayetteville, and Missouri State Line (portion of the project has already been constructed).

Please make your comments on this form in the space provided. Leave the form with the LA DOTD official or the Consultant at the Workshop or Public Information Meeting or mail by September 10, 1994 to: Mr. Chris Demopoulos, Demopoulos and Ferguson, Inc., 401 Edwards Street, Suite 1600, Shreveport, Louisiana 71101-6141.

1. Do you have knowledge of any archaeological sites, historical buildings or areas, or cemeteries (family or part of an abandoned church site)? *No*

2. Do you know of any abandoned landfills or hazardous waste sites, environmentally sensitive areas, endangered species or unique biological conditions, or endangered wildlife habitats within the Study area which should be considered in the evaluation of this project? *No*

3. If the proposed highway is within two miles of your community, do you believe it will have a beneficial effect upon its economy? *Yes, greater access, much more traffic, more commuting*

*to Shreveport & Texarkana. Possibly more homes built in the country. Depending on how far I-49 extends the North South traffic thru our state could increase tremendously*

4. Do you believe this project will have a beneficial effect (economical, quality of life) upon you or your community?

*Yes, I commute back & forth from Houston to Shreveport. This will save me time & money. The small towns also need an increase in traffic. If nothing else just the construction jobs will be of great help in the Houston area. I also think traffic on Hwy 2 would increase at least two fold.*

5. Make additional comments here:

First of all I-35 is the closest North-South Interstate - That's a long drive. If you haven't driven 71 thru Arkansas its incredibly slow. In order for Arkansas to grow it certainly need a major North-South road. We have completed I-49 to and almost thru Shreveport. It would just seem a waste not to connect to Texas or above. This could go all the way to Canada one day ~~and~~ which would be a win-win situation for all states if the project is feasible. I don't consider it Park

The State of Arkansas is planning the extension of this roadway to Texarkana, DeQueen, Ft. Smith, Fayetteville, and Missouri State Line (portion of the project has already been constructed).

Please make your comments on this form in the space provided. Leave the form with the LA DOTD official or the Consultant at the Workshop or Public Information Meeting or mail by September 10, 1994 to: Mr. Chris Demopoulos, Demopoulos and Ferguson, Inc., 401 Edwards Street, Suite 1600, Shreveport, Louisiana 71101-6141.

1. Do you have knowledge of any archaeological sites, historical buildings or areas, or cemeteries (family or part of an abandoned church site)?

MUNNORBYN  
Chapel Cemetery

2. Do you know of any abandoned landfills or hazardous waste sites, environmentally sensitive areas, endangered species or unique biological conditions, or endangered wildlife habitats within the Study area which should be considered in the evaluation of this project?

no

3. If the proposed highway is within two miles of your community, do you believe it will have a beneficial effect upon its economy?

Yes

4. Do you believe this project will have a beneficial effect (economical, quality of life) upon you or your community?

Yes

# CITIZEN COMMENT FORM

Public Comments Being Sought  
for Corridor Study  
North-South Expressway  
(I-220 to Arkansas State Line)

The Louisiana Department of Transportation and Development (LA DOTD) seeks public comments from individuals, citizens, community groups and organizations, local officials, and agencies on the proposed, new highway between I-220 to the Arkansas State Line. The State of Arkansas is planning the extension of this roadway to Texarkana, DeQueen, Ft. Smith, Fayetteville, and Missouri State Line (portion of the project has already been constructed).

Please make your comments on this form in the space provided. Leave the form with the LA DOTD official or the Consultant at the Workshop or Public Information Meeting or mail by September 10, 1994 to: Mr. Chris Demopulos, Demopulos and Ferguson, Inc., 401 Edwards Street, Suite 1600, Shreveport, Louisiana 71101-6141.

1. Do you have knowledge of any archaeological sites, historical buildings or areas, or cemeteries (family or part of an abandoned church site)?

*Cemetery at Houston, La. 71043*

2. Do you know of any abandoned landfills or hazardous waste sites, environmentally sensitive areas, endangered species or unique biological conditions, or endangered wildlife habitats within the Study area which should be considered in the evaluation of this project?

*no*

3. If the proposed highway is within two miles of your community, do you believe it will have a beneficial effect upon its economy?

*yes*

4. Do you believe this project will have a beneficial effect (economical, quality of life) upon you or your community?

*yes*

5. Make additional comments here:

Our family owns almost 500 Acres -  
southwest of Houston, Pine Island Field - Sec. 23-25 and 26 - These  
separate oil companies operating 75 to 100 producing wells (Marotack  
formation) high line cut through this acreage. The 1978 geologic survey  
by Tenneco Oil Co. showed 50 million barrels of oil in place on just  
this acreage - Fuller Lease -

Also we own all the minerals in Samson Field which  
has existing oil wells - northeast of Houston as designated on your Corridor Study map.  
I would recommend I-49 follow Kelly Bayou north skirting  
the hills.

(FOLD HERE FOR MAILING)

6. Please give us your name and address, if we need to obtain additional information about your responses to the above. Do you wish to be added to our Project Mailing List to receive Notice of future meetings?

## CITIZEN COMMENT FORM

Public Comments Being Sought  
for Corridor Study  
North-South Expressway  
(I-220 to Arkansas State Line)

The Louisiana Department of Transportation and Development (LaDOTD) seeks public comments from individuals, citizens, community groups and organizations, local officials, and agencies on the proposed, new highway between I-220 to the Arkansas State Line. The State of Arkansas is planning the extension of this roadway to Texarkana, DeQueen, Ft. Smith, Fayetteville, and Missouri State Line (portion of the project has already been constructed).

Please make your comments on this form in the space provided. Leave the form with the LaDOTD official or the Consultant at the Workshop or Public Information Meeting or mail not later than July 8, 1995 to: Mr. Chris Demopulos, Demopulos and Ferguson Associates Inc., 401 Edwards Street, Suite 1600, Shreveport, Louisiana 71101-6141.

1. Three alternative alignments (B,C and E) have been designated to be studied in greater detail during a future Environment Impact Study. Do you have a suggestion for other alignments which should be included? If so, what features will your suggestion incorporate or address which have not been taken into account by Alternates B,C and E.
2. Of the three alternative alignments, which one do you prefer: B (closer to Vivian and La 1), C (closer to US 71) or E (between B and C). Give at least one of the following as the reason for your selection.
  - a) least project cost
  - b) best serves the overall project objective to provide a controlled access highway between Shreveport and Kansas City thereby aiding economic development and improved trade potential between Canada, Mexico/South America and the United States.
  - c) service to my community
  - d) other, please specify
3. Do you believe the highway will have a beneficial effect (economically, quality of life) upon your community or you?
4. Are there any major environmental, social or economic concerns which should be included in this Study or the future Environmental Impact Study?

5. Make additional comments here: \_\_\_\_\_

## Workshop and Public Information Meeting

for  
Corridor Study  
North-South Expressway  
(I-220 to Arkansas State Line)

The Louisiana Department of Transportation and Development (LaDOTD) is seeking comments from the public in regards to the proposed new highway between I-220 and the Arkansas State Line. The approximately 36 mile highway is a part of the proposed highway corridor between Shreveport, Louisiana and Kansas City, Missouri. Funds for this Corridor Study were made available as a result of the Intermodal Surface Transportation Efficiency Act (ISTEA) passed by Congress and signed into law on December 19, 1991.

### Study Limits

The limits of the Corridor Study are generally bounded on the west by La 173, La 538 and by La 1 beginning north of Mooringsport, on the east by US 71 except for an area east of Gilliam, Hosston and Ida, on the north by the Arkansas State line and on the south by I-220 between the interchange at US 71 and LA 173. The study area is approximately 36 miles in length and varies in width from a minimum of two miles at I-220 to a maximum of ten miles.

### Purpose of Study

Purpose of the Corridor Study is to:

- Identify environmental concerns
- Conduct a comprehensive transportation analysis and define traffic demand
- Identify alternative alignments

### Workshop and Public Meeting

The primary purpose of the Workshop and Public Meeting is to inform the public of the purpose and scope of the Study, to provide an up-date on study work conducted to date and to receive information, comments and concerns from residents within the study area and the general public within the affected area.

This workshop and public meeting is the second series of Workshops and Public Meetings. The initial series of Workshop and Public Meetings were held at Gilliam Village Hall on August 22, 1994 and at the Shreveport-Bossier Regional Technical Institute Auditorium on August 23, 1994.

Presentation today includes exhibits and information to identify three alternative corridor alignments for proposed roadway locations within the study area. Each corridor may vary in width from a minimum of 2000 feet to a maximum of 4000 feet.

All three alternate corridors begin with an interchange on I-220 located between the existing interchanges of I-220 with LA 1 and LA 173 and end at the Arkansas State Line at a point near the Village of Ida as determined by the Arkansas State Highway and Transportation Department in their Environmental Impact Statement (EIS) for Texarkana to the Louisiana State Line. All three alignments offer access to intersecting state highways serving towns and villages in the project area. Existing development and the aforementioned EIS have limited the location of the project to the three corridors currently proposed.

Alternate B serves the western portion of the study area, skirting the Towns of Oil City and Vivian and crossing Black Bayou Lake. Alternate C serves the eastern portion of the study area, skirting the Villages of Belcher, Gilliam, and Hosston. Alternate E is a more centrally located alignment passing through the Village of Hosston. A number of connecting sub-corridors have been proposed which will allow these three alternates to be connected at different points, thus allowing the LaDOTD the ability to shift the alignment based on environmental impacts, engineering feasibility and public desirability.

Probable Project costs for each Alternate from I-220 to the Arkansas State line are as follows:

Alternate B - \$252,525,000.

Alternate C - \$204,400,000.

Alternate E - \$233,450,000.

LaDOTD has not chosen a preferred alternate at this time. It is likely that an Environmental Impact Statement will be utilized to analyze the project alternates. From the results of the upcoming EIS on this project, more definitive traffic and engineering studies as well as future public involvement, LaDOTD will identify a preferred alternative at a later date.

You may provide oral testimony during the Public Meetings. It is suggested that oral testimony be followed up with written comments. A Citizen Comment Form is being provided to all attendees to facilitate providing comments on the project as currently conceived. All comments received before July 8, 1995 shall become part of the official transcript of the Public Meeting. All written comments shall be reviewed as a part of the Final Corridor Study Report. Written comments should be addressed to:

Demopulos and Ferguson Associates, Inc.  
401 Edwards Street, Suite 1600  
Shreveport, Louisiana 71101-6141  
Attention: Chris Demopulos, P.E.
